RICCHE

INSPIRED BY THE PALMIRA DUNES

Amid the mountains of Ecuador, in an unexpected corner where the wind shapes fleeting forms upon the sand, lie the Palmira Dunes a landscape both serene and majestic.

It is here that the inspiration for the Ricche sofa was born. Its soft, embracing lines echo the gentle curves of the desert, while its solid structure reflects the stillness of the earth that anchors each dune.

Every detail is crafted to evoke a sense of calm and balance, the same quiet serenity one feels when lying upon warm sand, letting time pause between silence and breeze.

A design that translates the harmony of Ecuador's landscapes into a timeless piece elegant, organic, and deeply connected to nature.

CURVE

INSPIRED BY THE SEA LION.

Along the shores of the Galápagos Islands, where the sea caresses the sand in a gentle rhythm, sea lions rest, tracing silhouettes that seem sculpted by the wind.

From this harmony between motion and stillness arises the inspiration for the Curve sofa. A piece that translates the ocean's natural fluidity into a tangible form.

Its soft, enveloping lines evoke the organic gesture of rest, inviting the body to melt into the curve.

An homage to the natural elegance that lives within every movement of the sea.

CHESTERFIELD

SOFAS

The original Chesterfield sofa was commissioned by Lord Philip Stanhope, 4th Earl of Chesterfield, which explains where the name comes from.

Lord Stanhope wanted a sofa with intricate deep buttons and a low seat, upholstered in genuine leather that would allow gentlemen to sit comfortably, upright and without wrinkled clothes.

After Lord Stanhope asked for the first Chesterfield sofa to be commissioned, the iconic design was born, with its equally high back and rolled arms, pleated leather upholstery and sophisticated presence.

Lord Stanhope is said to have been a trendsetter during his time, so it wasn't long before the original Chesterfield design became fashionable.

Over the years, Chesterfield sofas have graced royal palaces, prominent business offices, hotels, restaurants, clubs and luxury private homes.

The Chesterfield is synonymous with elegance and class in interiors around the world, in all architectural and decorative styles. Regardless of what it represents to many, the Chesterfield remains firmly the sofa that embodies the perfect blend of comfort and sophistication.

INSPIRED BY THE MAJESTIC
ECUADORIAN ANDEAN
CONDOR.

Born from the imposing silhouette of the Andean condor, a symbol of grandeur and freedom.

Its open arms evoke the bird's outstretched wings in full flight, while the high backrest recalls its majestic bearing, rising firmly above the mountains.

The wide, enveloping seat invites rest, offering a safe haven where comfort meets elegance.

ELAXY

INSPIRED BY THE PHASES OF THE MOON

The design of the Elaxy table emerges from the contemplation of the lunar cycle, an eternal symbol of transformation and balance. Its composition of three circular forms represents the moon's most evocative phases: first quarter, full moon, and last quarter.

Each volume reflects a distinct moment in time. Expansion, fullness, and serenity united in perfect harmony. The contrast between glossy and matte surfaces evokes the dialogue between light and shadow, between the visible and the essential.

A surreal landscape featuring jagged, dark mountains under a light sky. In the foreground, a modern, dark, oval-shaped table with several thick, cylindrical legs sits on a dark, textured ground. A large, white, stylized 'V' shape is superimposed on the left side of the image.

FANTASY

M U B B O R I G I N A L

FANTASY

INSPIRED BY THE ECUADORIAN ANDES
MOUNTAINS

The design of MUBB's Fantasy table is inspired by the Andes Mountains, where peaks and valleys intertwine in natural harmony. Its organic lines and curves echo the contours of Ecuadorian landscapes, while the combination of noble materials reflects light like the first rays of sunrise. Sitting by Fantasy immerses you in a moment of calm and sophistication, where nature and design meet in perfect harmony.

| SHINE

SHINE

INSPIRED BY THE CRACKS AND CAVES OF THE GALÁPAGOS ISLANDS.

Where water gathers on the ground and light reflects, creating spaces full of mystery and beauty.

The three panels supporting the table echo the structure of these natural formations, combining stone with delicate wooden details to convey strength, warmth, and harmony among the elements.

Shine is more than a table: it reflects the architecture of nature, a dialogue between light, stone, wood, and water, inviting one to experience and inhabit the space with elegance.
